Profile

An enthusiastic and dedicated worker who is always eager to further develop skills and to meet new challenges. A breadth of technological experiences ranging from Web Development and Software Engineering to IT and Customer Support.

Work Experience

Web Developer, blueheronva.com

Designed, implemented, and maintained a user-friendly website resulting in a **130%** increase in lead volume and all-time sales records.

Web Developer, photobythebay.com

Designed and developed a website and storefront page for a local photographer, leading to a **400%** increase in sales over previous marketing, across 4 months.

IT Support, Thrive Wealth Advisors

6 years of technology support service to a local financial services practice, helping to create efficiencies and maintain regulatory compliance.

Developer / IT Support, Self Employed

Nov 2018 - Current

Perform programming and troubleshooting tasks for various companies and individuals on a task-by-task basis.

Junior Developer, Automark Solutions

Jun 2016 - Oct 2018

Automark's Instant Price Quote website plug-in application, for which I wrote code, delivered an average of **80%** more leads for their dealer clients resulting in a nearly **100%** increase in sales revenue for the company within 12 months of its introduction to the market.
